1. Applicant's election of Group I in Paper No. 21 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. Claims 39-48 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 21.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 26-28,30-38,47 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The friction coefficient being not higher than 0.07 is critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976).

5. Claims 26-29,31-38,47 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The surface roughness, Ra, not higher than 0.1 micron is critical or essential to the practice of the invention, but not included in

the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976).

6. The information disclosure statement (IDS) submitted on 9-12-03 was filed after the mailing date of the restriction on 8-13-03. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner. However the examiner received 2 copies of page 1 of 3 and not the page 3 of 3, and so pages 1 and 2 are signed by the examiner.

7. Claims 48-49 are allowed. None of the prior art found discloses the claimed roughness, thickness and coefficient of friction of a diamond coating on the claimed substrate in contact with the claimed oiliness agents.
